COMMONWEALTH OF VIRGINIA

STATE CORPORATION COMMISSION

AT RICHMOND, AUGUST 6, 2002

APPLICATION OF

VERIZON VIRGINIA INC.

CASE NO. PUC-2002-00014

For a change of classification
of intraLATA toll service under
Plan for Alternative Regulation

ORDER APPROVING RECLASSIFICATIONS

On February 1, 2002, Verizon Virginia Inc. ("Verizon Virginia" or "Company") filed with the State Corporation Commission ("Commission") tariffs proposing the reclassification of certain intraLATA toll services as "Competitive" under Subsection D of its Plan for Alternative Regulation ("Plan").

By Order entered February 22, 2002, we directed the Company to publish notice of its application and established a period for receipt of comments or requests for hearing. No requests for hearing were filed. Comments were filed by AT&T Communications of Virginia and Cox Virginia Telcom, Inc. By Order dated May 2, 2002, we permitted Verizon Virginia to file a response to the filed comments. The Company made its response on May 15, 2002.

By Order entered June 10, 2002, we approved certain of the proposed changes and extended the time for filing comments on other

changes the Company proposed in its May 15 response. No additional comments have been filed.

NOW THE COMMISSION, having considered the pleadings, is of the opinion and finds that the additional requested reclassifications should be granted.

Verizon Virginia's May 15, 2002, response sought to reclassify its Business Link Rewards Plan (tariff 215, § 8) and its Special Billing Number Service (tariff 209, § 5C) to "Competitive." The Commission is satisfied from the record that competition, or the threat of competition, sufficiently regulates the prices of the services proposed for change in classification to "Competitive." The appendix attached hereto is a chart showing all services the Commission has reclassified to "Competitive" in this matter by its Order of June 10, 2002, and this Order.

Accordingly, IT IS ORDERED THAT:

(1) The proposed reclassifications of intraLATA toll services set out above are APPROVED. For any rate increases to these reclassified services, Verizon Virginia shall abide by the customer notification requirements provided by Rule 11 of the Rules Governing the Certification of Interexchange Carriers (Case No. PUC850035; Order dated July 24, 1995).

(2) This matter is dismissed
